

THE EVENING NEWS

DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 8.

ADA, OKLAHOMA, TUESDAY EVENING, JULY 11, 1911

NUMBER 89.

EVENTS OF TRADES DAY

A FEW THINGS OF INTEREST THAT WILL BE SEEN.

First the Farmers' Institute is called to assemble here on that day which of itself will be largely attended. Then again Mr. F. S. White the agricultural and horticultural man of the Frisco System will have his car here with many exhibits of particular interest to the farmers, then too Col. Sidney Suggs, good roads commissioner will be here and will give a lecture which is worth while for every one who is interested in good roads to hear.

In the forenoon J. W. Davis will give the address of welcome and explain why the Ada Trades Day is given.

The day will be replete with amusements, such as automobile races, pony races ridden by boys, pony races ridden by girls, bicycle races and foot races with good band music throughout the entire day. The stock parade which is hoped to be the best ever seen in Ada, will be on the principal streets and will take place about 11:30.

Now folks come along and exhibit something you have. Exhibits are one of the features of the day and you can help to make it a success. Perhaps you do not care to enter for a premium but however the committee in charge urges you to make an exhibit. This is for educational purposes and what you exhibit may prove to be edifying to many others. Under the exhibits of farm products, poultry and live stock every one is urged to make entries but the committee restricts the premiums to those outside of the town.

Make as many entries Saturday as you can possibly make, for on Monday nothing will be received after nine o'clock. Take everything except live stock to the building next to Harris hotel where it will be received and ticket given for it. The stock taken care of at Davis' wagon yard near Katy depot.

CHAMP CLARK FIRES SOME HOT SHOTS

—Atlantic City, N. J., July 10.—With the big audience swayed to the tune of "Dixie" Speaker Clark was introduced to a record throng on the million dollar pier tonight as the principal speaker before the Christian Endeavor convention. His speech was striking throughout.

"There is no room in the United States for a pessimist or an idler," he declared at the outset. "Any man who misses two general elections should be disfranchised. Our forefathers did not fight so we could sit at home. They wanted us to have our own say at election. If I had one prayer that I was sure to be answered, it would be that every citizen should acquire sufficient education to read his own ballot and cast it as an American citizen should."

Says Hoodlums Run Elections. "Hoodlums run nine-tenths of our

elections, and the hoodlum who goes out and votes is a better man than the citizen who fails to cast his ballot. It is the duty of every Christian citizen to take a hand in politics. These fine-haired Christians who say they are too busy to enter politics are bad citizens."

"The great question before the American republic is the question of good citizenship. I do not believe the United States is going to the dogs, no matter whether a republican or a democrat heads the next administration."

World Growing Better.

"The world in general is growing better and particularly our part of the country. In my opinion we will soon devise a scheme that will give labor the benefit of its toil and keep riches from a few greedy souls. Signs point that the change is in sight and the employer will soon share his profits with his workmen. The pension system, already in force on most of the big railroads, puts to blush the system maintained by the United States government. This is not the age of controversial, but practical, religion."

GOSPEL TENT ON NORTH SCHOOL GROUND

There was a large audience at the tent last night to hear the message on "The Must of the Suffering Christ." (Acts 17:3). More seats will be provided today to accommodate the crowds. Already the seating capacity is 300, but more seats are necessary.

The singing was spirited last night and the new songs are taking well.

At each service sin is shown up, men are shown they are lost without the Christ and what they must do to be saved is made clear. The speaker spends no time in promoting some theory.

If you have any questions to ask write them out and bring them along and drop them in the basket. This is done to help those who may be bothered on some question, and not to provoke a profitless discussion.

Socialism Drives Farmers Insane.

Chickasha, Okla., July 11.—Sheriff John Lewis left Saturday for Norman, where he went to take Jake Hadlock, a farmer who was adjudged insane by the Grady county insanity commission. Hadlock is a farmer of the vicinity of Rush Springs and lives within a mile and a half of a farmer who was adjudged insane last week. Both become demented because of socialism. Hadlock is not violent.

Revolution Threatened in Cuba.

Washington, July 11.—According to information received by the state department today, Cuba is almost at the beginning of another revolution and the Gomez regime is threatened with overthrow.

As a result the state department is considering means of protecting the lives and property of American citizens and today even considered the possibility of another intervention.

From advices received here it is apparent that the Cubans are furious concerning the recent revelations of wealth acquired by President Gomez during his term of office. They declare he went into office a poor man and now is fabulously rich.

CAPITOL QUESTION IS UP AGAIN

COMPANY WILL SUBMIT ANOTHER PROPOSITION TO THE GOVERNOR.

Oklahoma City, July 11.—A proposition to be submitted to Governor Lee Cruce within the next two or three days, is being worked out by the Capitol Building company regarding that clause in the contract with the state which provides that the payments for the capitol shall be made in monthly installments of \$25,000. What that proposition is was not given out by members of the company, but it is understood to be a plan by which the state officials will be satisfied, without the actual payment of the money at this time.

The fact that the construction of the capitol building is not under way as yet, and that no expenses connected with it have been incurred by the state, in the opinion of Judge B. F. Burwell, does away with that provision of the contract calling for the first payments on July 1, 1911. Judge Burwell represented the senate committee of the legislature as its attorney in drawing up the contract, and he worded that section himself.

The proposition regarding the payment of the \$1,000,000 was thoroughly discussed in every detail when the contract was drawn up," he said Monday, "and it was understood that unless the erection of the capitol building had started, no payments were due on July 1, 1911. The clause so providing was put into the contract for that especial purpose, to prevent the state calling for the money faster than the building operations progressed, although in no instance were payment to be due oftener than \$25,000 a month. It was worded in that form to place the proposition beyond any question of doubt."

That clause of the contract which provides for the monthly payments reads as follows:

"A sufficient sum only shall be, by

Rugs and Carpets Cleaned
By Electricity
Phone Us For Prices
SMITH
203-5 W. Main St.

said company, paid to said state, to meet the expense and bills incurred in the erection of said capitol building as said building progresses, but in no event faster than hereinafter provided, to wit: The sum of \$25,000 shall be paid on the first day of July 1911, and on the first day of every month thereafter the sum of \$25,000 and any sum remaining unpaid of the \$1,000,000 on the first day of July 1914, shall be paid on that date, but it is understood that the party of the first part shall not be required to pay money to the said state of Oklahoma faster than the same is used in the construction of said state capitol building: It being further understood that all moneys furnished said state of Oklahoma shall be used for the erection of the said state capitol building, and no part of said moneys shall be used for any other purpose whatever."

COUNTY ATTORNEY KILLED BY TARGET GUN

Muskogee, Ok., July 11.—The deadly 22 target rifle claimed another victim today at Tahlequah when W. L. Johns, county attorney of Cherokee county accidentally shot himself, dying from the effects of the wound one hour later.

Mr. Johns was using the little gun in his barn this morning as a rat destroyer, and in some manner unknown discharged the gun accidentally the charge entering his stomach. No one was present except Johns, though his wife who was at the house heard a struggle in the barn and investigated only to find her husband a victim of the deadly 22.

Johns was only 25 years of age, was one of the brightest young attorneys in Cherokee county. He is survived by Mrs. Johns only.

Pott. County Cotton Crop.

Shawnee, Ok., July 11.—Pott. county will harvest about 35,000 bales of cotton this season, according to close estimates of persons who have visited all sections of the county. While the acreage is larger than a year ago, the yield will be somewhat less in some localities.

The yield will be largest in the southern part of the county where cotton stalks are now fully three feet high and beginning to mature.

Cotton picking will begin the latter part of August it is said. One of the troublesome questions now confronting cotton growers is whether hands will be available to pick the crop. It is stated that cotton growers in some sections of the county are already contracting with cotton pickers, offering good wages.

Spiritualists Reap a Golden Harvest.

New York, July 11.—Ira Erastus Davenport, the spiritualist, who with his brother toured this country and Europe many years ago, giving "manifestations" which at the time created a sensation, died at his home today in Maysville, Chautauqua county, N. Y. News of his death was received here in a brief dispatch. Davenport was 72 years old. The funeral will be held on Monday afternoon. Davenport left a widow and three children.

Davenport's brother was William Henry Harrison Davenport and they made a fortune of \$600,000 touring the world giving public "manifestations." In Liverpool a mob chased them out of town and once in Paris a jealous magician destroyed their "cabinet," necessitating a postponement of the seance.

William Davenport died in Sydney Australia, in July, 1877, and Ira retired from public life, returning to Mayville. Davenport was born in this state.

Heavy Rains Near Dunean.

Duncan, Ok., July 10.—Heavy rains covered this section beginning with last Thursday, the fall being about an inch. This is the first general rain to fall here since the latter part of May and all crops have suffered extensively, the corn crop being almost a complete failure. Cotton, however, and all forage crops are in good shape, and these rains practically insure good yields of each.

BIRDWELL CASE STILL ON TRIAL

The entire day has been occupied with the trial of the Tom Birdwell case. The state rested its case shortly before noon and the defense then began offering its testimony. It is opable that all the evidence will be in by the time court adjourns this afternoon.

As in the former trial, the state contends that the killing of Goodson was a cold blooded murder, while the defense endeavors to prove that owing to the bad feeling that had existed between the two men for some time, Goodson was on trail of Birdwell, and was in the act of drawing his gun when fired on by Birdwell.

TO PROVIDE FOR COUNTY DEMONSTRATOR

A. H. Burgess, secretary of the Retailers Association, has been in correspondence with the department of agriculture in regard to the employment of an expert, who will devote his entire time to helping the farmers of Pontotoc county. It is probable that he will succeed in the undertaking, and it is to be hoped that he will. Carter and two or three other counties have joined in a movement of this kind and have a man on the ground all the time. This is an age of education and the knowledge gained by these men is of immense value to the agricultural interests. They are not the much despised "book farmers," but men who have studied the best methods of scientific farming and have acquired knowledge that the average man does not have time to learn from actual experiment. A few words here and there would be of great value to many a farmer, who is not fully conversant with the nature of the soil he is working and crops that would thrive best or the most approved methods of cultivation.

Castro Getting Busy.

Willemstad, July 11.—A wireless message from Buenaire Island announces that Gen. Jose Antonio Davila landed on the island secretly Saturday night, having come from Venezuela.

Davila is one of the sixty-three men who, led by Gen. Cipriano Castro years ago, invaded the state of Tachira, Venezuela, from Colombian territory. He is Castro's close friend.

Later advices prove untrue Saturday's report that the president of the state of Zulia, Venezuela, had been killed by a bomb explosion.

According to the best information obtainable as to Castro, the deposed president of Venezuela is now on the western frontier of Venezuela at the head of 1,000 or more men, engaged in enlisting an army with which he proposes to repeat his exploit of twelve years ago, when he overthrew the government and placed himself in the presidency.

Buenaire, or Bonaire, is a Dutch West Indian island about sixty-five miles north of the north coast of Venezuela and thirty miles east of Curacao.

A wireless message from Arubia today reports that the American armored cruiser North Carolina, which carried the American representatives to the centennial anniversary of the independence of Venezuela, left La Guaira yesterday afternoon and is now anchored off Arubia Island.

Arubia is an island in the Dutch Antilles, near the coast of Venezuela.

TRAGEDY AT KONAWA

ROBERT ROBBETT RUN OVER AND INSTANTLY KILLED BY PASSENGER TRAIN.

Robert Robnett, the 16-year-old son of Jno. Robnett of Konawa, was run over and killed last night by the south bound Katy passenger train on a trestle just north of Konawa. His head and one arm were cut off and he was otherwise badly crushed.

From the best information obtainable, it appears that the boy had started to Maud. He evidently stopped on the trestle to rest and was lying down when the train appeared. The engineer stated that he tried to get out of the way, but it was too late and the train struck him with the above result.

Deceased was a nephew of Mrs. Mart Walsh. She and Mr. Walsh left this morning for Konawa.

NEW LEASE OF LIFE FOR SWANSON COUNTY

Oklahoma City, Ok., July 10.—Swanson county has another lease on life through an order of the supreme court today staying the mandate in the case by which the county was recently dissolved. A rehearing of the case is asked.

The county's attorneys want a reversal of the case on the ground that the state, by legislative and executive recognition of Swanson county, is estopped from questioning the legality of its creation.

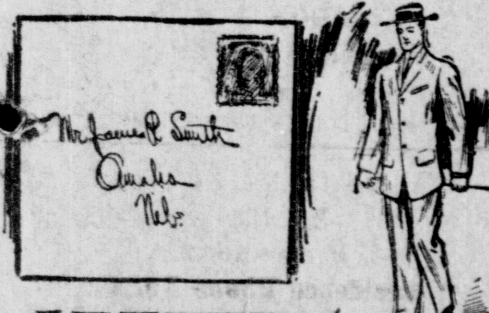

HE NEEDS A TONIC

We have tonics and tonics. Tonics for the hair and tonics that drive away that listless, sleepy feeling that always comes in spring and more commonly known as spring fever. Lynn's Blood Tonic is a sure cure for spring fever and our Herpicide hair tonic will grow hair on a billiard ball.

Any erroneous reflection on the
character, standing or reputation of
any person, firm or corporation which
may appear in the columns of The
News will be gladly corrected upon
its being brought to the attention of
the management.

Obituaries and Resolutions of Re-
spect of less than 100 words will be
published free. For all matter in
excess of 100 words a charge of one
cent per word will be made. Count
your words and remit with manu-
script.

The News is in receipt of a pam-
phlet entitled: "Summer Profits in
Farms." Perhaps it refers to the size
of gate receipts at ball games.

The patent insides referred to by
some papers do not refer to the pa-
pers themselves, but to the specially
constructed anatomy of the editors. If
they did not have patent insides, most
of them would die of starvation.

The democratic leaders seem to
have come back to the path leading
to victory. They have put away side
issues and declare the campaign of
1912 will be fought out on a tariff re-
form platform. With the high cost of
living and the growing power of the
trusts created by the republican tar-
riff, the people will need little argu-
ment to convince them that the only
hope for relief lies in a revision of
the tariff at the hands of the demo-
cratic party.

The doctors of Kansas have be-
gun a campaign against Capper, the
Topeka publisher, who seeks the
nomination for governor, because in
his papers he carries patent medi-
cine advertisements. Looks like a sort
of dog-in-the-manger trick. The doc-
tors claim it is highly unethical for
them to advertise, and now they
blame the papers for selling space to
those who do not view it in that light.
Verily, a newspaper man catches it
going and coming.

The Local Newspaper.
Having sold his Sterling Bulletin
and abandoned the newspaper busi-
ness, J. E. Junkin feels that he is
now in a position to tell the people
just how they should treat their lo-
cal paper and its editor without be-
ing accused of having a selfish pur-
pose. He has written a "communica-
tion" on how to make the editor ef-
fective, in which he says in part:
"Remember he is a human being

with frailties like other people al-
though he generally has his natural
weakness under better control than
most men. Try to develop his sunny
side by just as few criticisms as pos-
sible and an occasional word of
praise.

Encourage him in a business way.
Figure how much your business can
afford to spend a year for advertis-
ing and ask his co-operation in get-
ting the best results. Don't greet him
with "takeout my advertisement,"
when he drops in to talk matters over
with you. He may have come with
some valuable suggestion, and hos-
tility or indifference may deprive you
of his assistance.

"He can be made the community's
best asset. The newspaper, more than
any other factor, has to do with the
town's welfare. It is a bugle announc-
ing the dawn of new enterprises. It is
a packhorse bearing burdens when
others are knocking or shirking. It is
the one force that should always
bring hopefulness. No clouds should
be without silver linings, if the news-
paper meets its opportunity. These
things and more the newspaper can
and will do for the town which will
get behind it. Usually the careful
business man tries to keep his assets
unimpaired. A town should do the
same—and a good newspaper is its
best asset.

"And in the name of common de-
cency, don't talk about boycotting a
paper or start a cut-throat opposition
because the editor is passively or ac-
tively on the other side of a town
fight. He won't amount to two whoops
if he doesn't have principles and stay
by them. Be proud of him, if he is a
good clean fighter, even if he is op-
posed to you. Then if in his judgment
he sees no real reason for a fight out-
side of personal ambitions or faction-
al differences, don't howl about him
being a coward. It takes more cour-
age, sometimes to keep out of a fight
than to get into one. Rather give him
credit for having more common sense
and better judgment than you have
yourself."—K. C. Journal.

State Is Aiding Farm Education.

The Oklahoma A. & M. College and
the state board of agriculture will
soon have four separate schools in
operation for the benefit of the farm
population of the state. The regular
summer term at the college is now
on and the special cotton school
starts soon. A series of two-day ag-
ricultural schools is now being held
in fifteen counties of the state and
on July 10 will start the series of
six day schools in the five counties
which showed the largest member-
ship in the county farmers' institute,
in proportion to population, in the
five supreme court districts.

The dates are: Marshall county,
Madill, July 10-15; Ottawa county,
Miami, July 17-22; Caddo county, An-
adarko, August 7-12; Woods county,
Alva, July 31, August 5; Pawnee coun-
ty, Pawnee, July 24-29. An entire
week will be spent at each place and
practically the same program carried
by a big corps of lecturers from the
A. & M. College and the district agri-
cultural schools.

The college supplies two big assem-
bly tents, a car of pure-bred live-
stock, consisting of Percheron horses,
beef cattle and Jersey cows, for de-
monstration work; a large quantity of
scientific apparatus and industrial
equipment and a full outfit of lan-
tern slides and moving picture films.
Illustrated lectures will be given each
evening. The railroads are transport-
ing the equipment and the lecturers
free of charge, under authority of the
corporation commission.—Oklahoma

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Re-
store Gray and Faded Hair
to Its Natural Color.

It is easier to preserve the color of the
hair than to restore it, although it is
possible to do both. Our grandmothers
understood the secret. They made a
"sage tea," and their dark, glossy hair
long after middle life was due to this
fact. Our mothers have gray hairs be-
fore they are fifty, but they are begin-
ning to appreciate the vision of our
grandmothers in using "sage tea" for
their hair and are fast following suit.
The present generation has the advan-
tage of the past in that it can get a
ready-to-use preparation called Wyeth's
Sage and Sulphur Hair Remedy. As a
scalp tonic and color restorer this pre-
paration is vastly superior to the ordinary
"sage tea" made by our grandmothers.
This remedy is sold under guarantee
that the money will be refunded if it
fails to do exactly as represented.
This preparation is offered to the
public at fifty cents a bottle, and is
recommended and sold by all druggists.
GWYN & MAYS DRUG CO.

THE TOWN FARMER.

If advice you sometimes need,
I pray you go to town
Where it is free as wind that blows
By every one around.

The lawyer, doctor, merchant, all
Were once a farming man.
They made their start here in this
world,
By tilling of the land.

They'll tell you how to break your
land,
To plant and plow and hoe,
And how they made their bumper
crop
Without rain, sleet or snow.

They'll tell you how to plant your
oats,
Your barley, wheat and rye,
And who to sell your products to
And where and when to buy.

Of all mistakes they ever made,
The greatest they have found
Was when they sold their little farm
And moved away to town.

They would have been a Carnegie
And give their fortunes round.
Would they have been contented
there
And never moved to town?

But, if perchance misfortune comes,
A panic, fire or storm,
One loses all his earthly goods
And is not worth a darn.

You go to him in sympathy,
Say, "My friend, here's land,
Teams and tools, corn and hay,
Now make us all you can."

I'll go the treats, he'll turn you down,
If betting is no harm,
He'd rather have a peanut stand
Than any black land farm.

—H. P. Shotwell, in Texas Farm and
Ranch.

Going After Sapulpa Jointists.

Sapulpa, Ok., July 11.—Sunday
night Deputy Sheriff Townsend, with
Holmes Davidson and Thomas Hub-
bard, made a round-up of some booze
emporiums. The raiders started on
Dewey avenue and swept eastward,
taking in the famous Steinbrook
place, the Casino, the Big Four and
other joints where the law is violated
as often as possible. At one place a
barrel of beer was confiscated and
all of them contributed something of
value, but the raiders were in haste
and did a destructive job as they
went along. The warrants had been
secured by Hubbard and the axe was
utilized wherever there was the least
semblance of slothfulness in getting
the doors open.

The officers could not get all of
their intended work finished on time
scheduled, but they were thorough
so far as they went and left little evi-
dence that their coming had been
appreciated by their unwilling hosts.
This was but the forerunner of
what the officers proclaim as the final
windup. Officialdom is determined
to close up the joints and they have
the consent of a very large majority
of the people.

Water Consumers—Notice.

On account of an insufficiency of
water from the city well we have
been compelled to turn the water
from the old reservoir into the city
mains. This water is far from pure
and should be boiled or thoroughly
filtered before being used for do-
mestic purposes. Boil or filter your
water and save doctor bills.
WATER COMMITTEE.

S. C. Yeargan and family of New
Albany, Miss., who have been here
on a visit to his brother, Frank
Yeargan, left this morning for Ma-
dill.

AVIATOR IS ATTACKED BY A FURIOUS EAGLE

M. GILBERT SHOTS BIRD THAT
REPEATEDLY SWOOPS DOWN
ON THROBBING MACHINE.

Alsasqua, Spain.—Aviator Gilbert,
after a battle with an eagle at a
height of four thousand feet, landed
here second in the Paris-Madrid race
for \$20,000.

In his flight over the Cantabrian
mountains, while soaring at a lofty
height, a monster gray eagle attacked
Gilbert, swooping down on the aero-
plane and beating the aviator with
beak and talons.

Gilbert's aeroplane required all his
attention because of treacherous air
currents over the mountains. The ma-

Eagle Attacks Aviator.

chine was at a height of 4,000 feet,
with the country lying dim beneath.
The great bird circled round and
round the aeroplane, evidently think-
ing it a new and monster member of
the bird family. Finally Gilbert man-
aged to draw his revolver and fired
two shots at the eagle, driving it off.
When the aviator landed here he de-
clared the aerial battle with the giant
bird had given him the most exciting
moments of his career.

At one time the eagle attacked him
so fiercely, he said, that the aviator
had to take his hands off the levers
and momentarily lost control of the
machine. It was at this time that the
intrepid airman drew his revolver.
The first shot went wild, but fright-
ened the bird, and the second struck
it. Gilbert regained control of his
machine just in time to keep it from
crashing to the ground.

NAILS TALKING GIRL TO CHAIR

Unusual Kind of Assault and Battery
Charged Against New
Jersey Man.

New York.—John Eddings, the odd
jobs man of Prospect Park borough,
N. J., is awaiting trial on a charge of
assault and battery, but it is such an
unusual kind of assault and battery
his fame in that section will not be
dimmed for many a day. Miss Barbara
Bachtold, Eddings' sister-in-law, is
only fifteen years old, but she talks
twice too much for a person of that
age, according to Eddings, who did not
hesitate to tell her so when he came
home from work with his hammer and
nails and saw. "It's a free country,
I'll talk as much as I like," she retort-
ed, and she did. "If you don't sit
down and keep quiet I'll make you,"
was his ultimatum. "I dare you!"
Eddings seized her, deposited her in a
pine kitchen chair and drove nails
through the skirt of her frock until she

Nails Girl to Chair.

was surrounded by tenpenny wires
and securely held to the chair, where
her mother found her. Eddings said
he was "only fooling," but Justice
Shea held him to special sessions.

Must Kiss Wife Once a Day.

Atlanta, Ga.—Because her husband
refused to see her upturned lips ready
for a kiss, Mrs. T. K. White had him
arrested and brought before Judge Orr
on a charge of mistreatment and
abuse. The judge instructed the hus-
band to give her at least one kiss a
day, while a few thrown in for good
measure, he said, would not be out of
the way.

There's Not a Store In Town

That Would, In Six
Months From Now
Be Half as Important
as it is Now, if it
Should Stop Adver-
tising During That
Time!

Isn't that perfectly true—perfectly logical?
Can you imagine any store of which it would
not be true?

And, if true, does it not follow that the re-
verse of the proposition is true, too—that the
store that doubles its accustomed advertising
for the next six months will also double its ac-
customed store growth for that period?

And does not this, also, apply to any store
you can think of in this town?

Council Works on Street Ordinance.

The council devoted most of last
evening to the consideration of an
ordinance regulating the working of
the streets and collection of street
taxes. In conformity with the statute
of the state, it was worded to com-
pel every man to work four days or
pay \$1.25 for every day he did not
work, but the council did not take
kindly to that idea, and the present
rate of \$4.00 per annum will likely
remain undisturbed. As only five alder-
men were present, the ordinance
could not be passed under suspen-
sion of the rules, and was laid over
until next meeting.

Watch Us Grow

\$1,600,000 FOR TULSA COUNTY ROADS

Tulsa, Okla., July 11.—A dozen prominent farmers of different parts of Tulsa county met in Tulsa yesterday afternoon, held a lengthy conference, perfected an organization and fired the first gun in a county-wide good roads campaign to be carried on this summer and fall. The meeting was called to order by J. P. Harter, experimental farmer and government demonstrator, in the Commercial Club rooms.

Arthur Antle, former liveryman of Tulsa, and prominent farmer was elected president and C. H. Cleveland former county commissioner and president of the Skiatook State Bank, was elected secretary.

The members of the new organization called in a body on the city commissioners and received much encouragement from that body. Steps were taken at yesterday's meeting to organize Good Roads District No. 1, and active good road building will be started in that territory at once.

About two years ago the voters of Tulsa county voted a \$400,000 good roads bond issue but up to this time practically none of this amount has been spent. Under the state laws the county at large pays one-fourth of the costs of improving roads in any one road district. This means that \$1,200,000 must be spent by various road districts in the county before the \$400,000 county fund is used, making a total of \$1,600,000 in all.

Another meeting of the good roads organization will be held in the near future, perhaps in Tulsa or Broken Arrow, at which time, other matters of importance concerning the future of Tulsa county's highways will be discussed.

The good roads matters are now in the hands of a bunch of real live wires and results can be expected.

NOTICE!

On account of pressing business and the district court being in session I have to postpone the meeting of the Law and Order League till further notice is given.

W. S. KERR, President.

Card of Thanks.

To our many friends at Oakman and Ada we desire to express our heartfelt thanks and gratitude for their many acts of kindness to us during the long period of illness of our daughter and sister, Mrs. Robert D. Caldwell. In every possible way they showed their sympathy, and there was never a time when anything they could do was left undone. Mrs. Dr. Long, Son and Daughter.

Death of Mrs. Robt. D. Caldwell.

About four o'clock yesterday afternoon Mrs. Robert D. Caldwell, daughter of Mrs. Dr. Long of Oakman, died at the home of W. L. Bowers and wife in North Ada.

Deceased was about 26 years of age. She was left a widow about four months ago, her husband dying in Montana of tuberculosis. She was also afflicted with the same dread disease, and came to reside with her mother. Everything was done for the sufferer that could be, but there was no hope for her recovery.

About a week ago she accepted an invitation from the Bowers family to come to Ada, and while here they and her mother, sister and the neighbors did all possible to make her last days pleasant.

The remains will be taken to Anna, Collin county, Texas, for burial tomorrow.

Deceased was the daughter of one of the most prominent physicians in North Texas, who was known to a number of Ada citizens coming from that section.

Flesh-Eating Plants. There are about one hundred varieties of flesh-eating plants known.

STATE ARGONOMIST TELLS HOW TO RAISE ALFALFA

All of the printed matter published by this station pertaining to alfalfa has been exhausted. The continued requests for information as how to best start the crop, how to harvest and how to keep the field in good condition shows a widespread interest. The following brief suggestions should be found useful to those who have had no experience in growing this crop. These statements are made briefly and concisely and are based on the results secured in extensive departments at this station.

Starting the Crop.

There are but few farms in Oklahoma on which alfalfa may not be grown profitably, at least on a few acres.

Alfalfa succeeds fairly well on both upland and bottom land, but is much more productive on the bottom land. The rich alluvial bottom lands of the state give the best results. Loamy soil or sandy loam is better than a very heavy clay soil.

Alfalfa will not grow on land having a very compact nappan, on wet, undrained soil or on sour or acid land.

The soil should be well prepared. Alfalfa should not be seeded on fresh plowing, but the seed bed should be firm, with the surface in good tilth.

Seeding may be done in the spring (April) or fall (the last of August or during September) but on unfavorable soil and on weedy land fall seeding will probably give the best results.

Twelve to twenty pounds of seed should be sown per acre, either broadcast or drilled. Care should be used not to plant too deeply as the seed are very small.

Alfalfa should always be planted by itself, never with a nurse crop, except when sown in the fall on land which drifts badly. When sown on such a field it may be well to seed a peck of oats or barley at the same time if the alfalfa is seeded in the fall.

On land devoid of humus and in poor physical condition a good application of barnyard manure will be exceedingly valuable.

Inoculation is seldom if ever necessary in Oklahoma.

Always start alfalfa in a small way and increase the acreage gradually as desired.

Seed home grown variety if possible to secure such a strain. There is very little difference in the varieties as commonly sold on the market.

Use nothing but the best seed. Ex-

amine for noxious weeds and especially dodder.

Send a sample of the seed to the Experiment Station for germination and purity tests before seeding, but do not wait until a week or so before seeding time. This test will be made free of charge, and a report can be expected inside of two weeks after the sample is received.

Liming the soil has not been found beneficial on the station farm on either upland or bottom land.

After Treatment.

When weather conditions are very unfavorable the young plants may die. When this occurs reseed on the same land the following spring or fall, as the case may be. Do not let one unsuccessful trial discourage you.

If the leaves turn yellow or rust badly, or if severely attacked by insects, or if weeds grow rank and shade the young plants, it should be clipped.

Clip whenever the plants begin to blossom even during the first year.

Use a spring-tooth harrow, a renovator or a disc harrow in the spring just after a crop is removed when the soil becomes hard and compact or very weedy. When a disc is used set nearly straight and weight down so that it will run the desired depth.

Manure will always give good returns and especially on poor land and when the plants are doing poorly.

Do not pasture late in the fall or during the winter. Most alfalfa growers claim better results when the crop is grown for hay than when the field is pastured.

Do not pasture at all during the first three years, or until the alfalfa becomes thoroughly established.

The alfalfa crop should be cut when ever 5 or 10 per cent of the plants are in blossom. Even a better method of telling when to mow is to watch the base of the plant and cut whenever the little buds show that a new growth is started.

Allow the plants to wilt but not to become too dry in the swath, then rake and cure in the wind row or bunches.

Stack or put in the barn when cured, which will be about one week after mowing, depending upon the weather conditions.

When a seed crop is desired, the first crop should be removed and then the plants allowed to go to seed. The production of seed depends very largely upon the weather conditions and upon the thickness of the plants. The seed crop may be mowed and raked the same as the hay crop, and most of the seed can be saved by an ordinary threshing machine.

Feed this valuable hay to good stock; you cannot afford to sell it.

Briefly this summarizes the more important considerations in starting and caring for the alfalfa crop, and is intended to answer the many questions which are constantly being asked of the station.

O. O. CHURCHILL, Argonomist.

A dollar or two will do when you buy furniture from A. Goldwasser. 301-dtf-51wtf

Reciprocity Bill Appears Safe.

Washington, July 10.--The Canadian reciprocity bill emerged unscathed tonight from the most severe ordeal it has yet had in the senate. The amendments offered by Senator Cummins of Iowa and Senator Simmons of North Carolina, all seeking to increase the number of Canadian-manufactured articles that are included in the bill were voted down. The vote in favor of the amendment was so small that Mr. Cummins asked for only five roll calls, although he had announced his intention of asking for at least ten. The maximum vote for his amendment was 14 compared with 53 against. The defeat of the Cummins amendment cleared the situation in the senate and leaves the bill much nearer the final passage.

Nonsensical Idea.

A London physician has made the suggestion that condemned criminals should drink river water in its "raw" state, that the effects might be observed. Presumably it would only mean cases of typhoid to be cured at the expense of the state.

Oldest Dwelling.

Archaeologists at a recent conference decided that the oldest dwelling inhabited today is a mansion belonging to Count Matuschke at Winfel-on-the-Rhine, Germany, which was built in 700.

Favor Death Penalty.

A popular vote on the question, "Are you in favor of the death penalty?" conducted by a Parisian paper, resulted three to one in favor of "Yes."

Pastor to His Flock.

"When I look at you fellows," said the jail warden, who was something of a humorist, "I somehow feel that the Lord didn't make good."

The Other Way About.

A great many make fun of what they do not understand, simply because they do not understand--that does not hurt the thing they poke fun at, but themselves.

S.S.S. FOR SCROFULA NATURE'S PERFECT CURE

Swollen glands about the neck, weak eyes, running sores and abscesses, pale, waxy complexions and frail, poorly developed systems, are the most usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs that from birth the disease shows its presence. In other cases it is held in check during young, vigorous life, but when the system begins to weaken, especially after a spell of sickness, the disease will often manifest itself in some form. S. S. S. is Nature's perfect cure for Scrofula, made entirely of healthful roots, herbs and barks, a perfectly safe medicine for young or old. S. S. S. goes into the circulation, and drives out all scrofulous matter, and supplies the blood with the healthful, vigorous qualities it is in need of. In this way it builds up weak, delicate persons and makes them strong and healthy. S. S. S. cures Scrofula because it is the most perfect of all blood purifiers. Book on the Blood and medical advice free. S. S. S. is for sale at drug stores.
